The rear defroster in my 2009 Impala does not work. The car has 91k miles. I don't think there is a fuse for it like I expected there to be. I looked in the fuse boxes but there's no defroster fuse. The light still lights up on the button like it's working but the window stays fogged. Not sure how to fix this. Thanks for the help ☐☐

YES I have replaced ALL fuses containing to lighting, replaced ALL the exterior bulbs, I have checked the ground wire and even cleaned it up. I haven't used a volt reader at the fuse box yet but that's my next move. Any idea why this is a problem with this body style of impala? Thanks . My car has 104000 miles. My car has an automatic transmission.
