Cessna Service Letter 93-03 provides details on how to deal with corrosion when it's found. If the depth of the corrosion is greater than 20 percent of the skin thickness in non-pressurized airplanes (10 percent in pressurized airplanes) the corrosion can be removed and treated. If it's any deeper, the damage must be patched or panel replaced.

Cessna Flyer Association - Spotting Airframe Corrosion and ...

I (with an A&P) changed my alternator from the Chrysler/Prestolite to a Hartzell Plane Power. It was a direct replacement requiring no modifications to the engine or airframe. My mechanic (the same one as above) now says that it has to be inspected by an IA and a 337 sent off to Oklahoma. I'm wondering why.

Why is a 337 required? | Pilots of America

Skin to Skin (Skin Deep #3) | Read Novels Online

The more I read, however, the more tiresome and incoherent I found the novel. I forced myself to read the whole thing, only to be disappointed at the minimal payoff. I haven't a clue as to why this novel received so many positive newspaper reviews and was even adapted for the screen. From what I've read, the movie is more interesting than the book.
