Archetype Revisited An Updated Natural

In Archetype Revisited: An Updated Natural History of the Self Dr. Stevens succeeds in doing just that. The main premise of the book is that Carl Jung was well ahead of his time, and that Jungian theory, in author's opinion, has been, for the most part, validated by scientific research in the last forty years.

Jung and the Archetype of the Apocalypse - Jungian Center ...

Jungian archetypes are defined as universal, archaic symbols and images that derive from the collective unconscious, as proposed by Carl Jung. They are the psychic counterpart of instinct. That is to say they are a kind of innate unspecific knowledge, derived from the sum total of human history, which prefigures and directs conscious behavior.
