### Leatherworking in the Middle Ages

Leather Working In The Middle Ages. Throughout the Middle Ages the leather working process improved, using techniques such as vegetable tanning. This involved using the bark of trees and plants to treat the animal hide. In Spain, during the eighth century, cordovan leather production was developed. It is an important part of leather working ...

### Genuine Leather Goods: a Brief History of Leather Working ...

Leather upholstery did grow in popularity throughout the Middle Ages and by the dawn of the 14 th Century the art of leather detailing had become well-established on the continent. The association of leather with status and luxury steadily grew and it is said that the walls of Pope Leo X's palace were covered with velvet overlain by stamped and gilt leather.

Today, traditional leather currying has dwindled to the last few practitioners of a medieval craft. But the Worshipful Company of Curriers is dedicated to upholding the work and promoting its ...

### The medieval art of making fine leather and its last ...

The production of leather goes back to prehistoric times. In the Middle Ages, leather was used for shoes, belts, armor, horse tackle, furniture, and a wide assortment of everyday products. Leather could be dyed, painted, or tooled in a variety of fashions for ornamentation.

### Medieval Clothing and Fabrics in the Middle Ages

Skipping forward to the 8th century of Spain (then under the dominion of the Moors) we have the development of the production of "Cordovan", thanks to important progress in tanning, a type of leather famous throughout Europe for centuries. That skill in leather tanning was not a prerogative of the western world as recounted by Marco Polo.

### History of Leather - Leather Resource

Largely, Middle Ages crafts were not hobbies or artistic demonstrations, but trades that had been studied and mastered by craftsmen. Craftsmen joined forces and organized in craft guilds that

allowed them the opportunity to gain prestige, power, and wealth through the practice of their trades.
