Stock Market Cycles - Historical Chart | MacroTrends

See Business Cycle. Calling changes in the stock market as Stock market cycles a "cycle" is a misnomer, because of its non-cyclical nature. Milton Friedman believed that for the most part, excluding very large supply shocks, business declines are more of a monetary phenomenon. Despite the often-applied term cycles, the fluctuations in business economic activity do not exhibit uniform or predictable periodicity. According to standard theory, a decrease in price will result in less supply and more
